

## WIRING SOLUTIONS TO HELP YOUR FLEET:

Save Money • Save Time • Standardize

Wired Rite Systems, Inc. introduces the new **ULTRA-LITE Series** of power distribution centers. Three new solutions to help installers manage the growing need for electrical power distribution for after market devices required in your fleet.

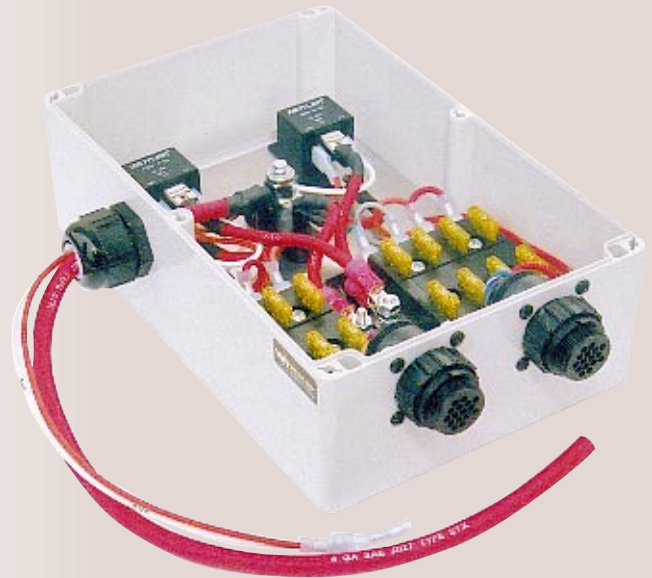

The new **ULTRA-LITE Series** is ideal for power management of various types of add-on devices such as radios, laptops, GPS units, 12 volt outlets and cell phone chargers.

Each multi-use system comes pre-wired with GXL and color-coded wires for safety and convenience. All 3 include a system relay and auxiliary block loaded with field serviceable ATC blade style fuses and terminated wires for easy installation.

### 150 AMP (Max)

### X-PDC-24402

- 8 position ignition switched circuit breaker/fuse block
- 6 position battery hot (un-switched) circuit breaker fuse block
- Watertight, polycarbonate enclosure
- Clear Lexan lid with  $\frac{1}{4}$  turn captive fasteners
- Mating connectors and pins included

### 80 AMP (Max)

### X-PDC-24404

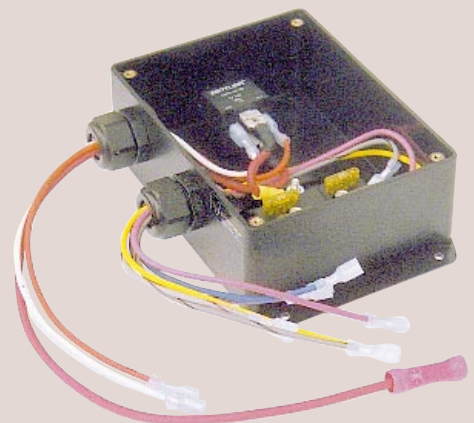

- 8 position ignition switched circuit breaker/fuse block
- Watertight, polycarbonate enclosure
- Clear Lexan lid with  $\frac{1}{4}$  turn captive fasteners
- Includes 8 replaceable ATC fuses
- Mating connectors and connecting pins included

### 60 AMP (Max)

### X-PDC-24410

- 6 position ignition switched circuit breaker/fuse block
- Compact design for easy mounting
- Heavy-duty ABS enclosure with watertight strain reliefs
- Includes 6 replaceable ATC fuses
- Convenient wire connectors
